

A Total Life Concept For Healthcare, Fitness, Nutrition, and Behavioral Health

FREQUENTLY ASKED QUESTIONS - FOR BUSINESSES

Direct Primary Care for Your Employees

Save Money. Keep Employees Healthy. Comply with the Affordable Care Act.

Today's healthcare landscape is a difficult one for business owners to navigate. Mountain View Family Healthcare can offer solutions! Making Mountain View Family Healthcare's direct primary care services available to employees is an innovative solution for businesses of virtually any size.

If you already provide your employees with health insurance coverage:

Offering employees affordable health care benefits has become more and more challenging in recent years worsened by often confusing federal healthcare mandates. Pairing our direct primary care membership with a high-deductible health plan is one cost-effective way for business owners to provide top quality health benefits to their employees while meeting the employer requirements of the Affordable Care Act. Partially or fully self-insured businesses also see dramatic cost savings related to lower utilization of high cost healthcare in this model of care.

If you aren't mandated to provide your employees with coverage:

Smaller businesses often want to support employees' health but are unable to afford the cost of providing them with traditional health insurance coverage. Our direct primary care model allows you a low cost, high value option to provide your employees with access to comprehensive primary healthcare.

What does Direct Primary Care offer you and your employees?

For a fixed, low monthly fee, your employees receive comprehensive primary care with little to no additional cost per visit. You can choose to either cover the monthly fee completely or share the cost with your employee. Benefits include:

- Unlimited access for employees to comprehensive primary healthcare
- Unhurried, 30-60 minute appointments completely focused on your employees' health and well-being
- Option of phone appointments and e-visits
- Same or next day appointments for more urgent care
- No co-payments, co-insurance, or deductibles for your employees to pay
- Integration with your other benefit offerings
- Reporting on utilization and health indicators
- After hour phone access to the Mountain View physician for urgent medical needs
- Convenient clinic location near downtown Durango
- On-site access to nutrition counseling, fitness assessment and behavioral health counseling with a collaborative approach to optimizing health
- Opportunity to create customized wellness programs for your workplace
- Healthier, happier, more productive employees!
